

Put the Power of
Precision Shade Technology
Within Your Grasp

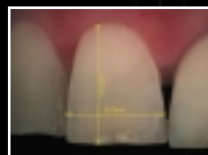

With the revolutionary technology of SpectroShade, you have the power to enhance communication with dentists and virtually eliminate esthetic-based remakes. Now, dentists can provide you with all the information you need to create a perfect shade match. It also makes communication so easy and accurate, they'll feel like you're right next-door.

The patented SpectroShade system lets you accurately and consistently match shades of natural teeth to a variety of restorative materials and shade systems. And, SpectroShade allows you to change shade standards with the touch of a button. A variety of powerful features let you automatically map specific shade areas, perform pre- and post-operative split screens, measure exact tooth size, perform quality control functions, and receive e-mails or CD-ROMs to save patient information.

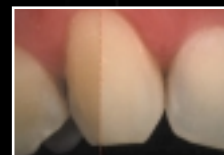

Imagine virtually eliminating costly remakes and increasing communication with your dentists, placing your laboratory a step ahead. Now the innovative SpectroShade system puts the power to increase profits in your hands.
